Someone is throwing caution to the wind.

Cao Cao

I've written a short song about my eventual victory at Red Cliff. I hope it will rally our spirit and bring us together for the upcoming battle. Here are the lyrics:

Here before us, wine and song!
For man does not live long.
Like daybreak dew,
His days are swiftly gone.

Sanguine-souled we have to be!
Though painful memory haunts us yet.
Thoughts and sorrows naught allays,
Save the cup Du Kang first set.

"Deep the hue of the scholar's robe;
Deeper, the longing of my heart."
For all of you, my dearest lords,
I voice again this ancient part.

Nibbling on the duckweed,
"Loo! Loo!" the lowing deer.
At our feast sit honored guests
For string and reed to cheer.

The moon on high beckons bright,
But no man's ever stayed it.
Heart's care rises from within,
And nothing can deny it.

Take our thanks for all your pains;
Your presence does us honor.
Reunited on this feasting day,
We well old loves remember.

The moon is bright, the stars are few,
The magpie black as raven.
It southbound circles thrice a tree
That offers him no haven.

The mountaintop no height eschews;
The sea eschews no deep.
And the Duke of Zhou spat out his meal
An empire's trust to keep.

If you are interested, please check out my SoundCloud or download my song from iTunes.

My lord, a storm just appeared on the horizon!

Xun You · 8:12 PM

What do you mean appeared?
How can a storm just appear?

8:13 PM ✓

We spotted Zhuge Liang seeding the clouds with silver oxide, creating an artificial rainstorm!

Xun You · 8:14 PM

Why would he need a storm?
Our weakness is fire because we are linked together. What's his game? Perhaps it's an attempt to make us lower our guards against fire. Keep the water pump operational.

8:16 PM ✓

Sir, we've spotted planes coming from enemy lines.

8:21 PM

Shoot them down!

8:21 PM ✓

Sir, they are dropping themselves onto our ships!
Their collisions started fires on multiple ships.

8:22 PM

We've prepared for this. Put out the fire with the water pump!

8:22 PM ✓

Sir, the fire is not going out! The water is actually making the fire explode out of control!

8:23 PM

What?!?!

8:23 PM ✓

Sir, the rain and our fire fighting is spreading the fire further!

8:24 PM

What sorcery is this?! What were those planes filled with?!

8:25 PM ✓

Sir, they were filled with magnesium! Shooting them down ignited the magnesium, creating a class D, or metal fire! These fires are agitated by water!

8:25 PM

How do we put out these fire?

8:28 PM ✓

We need dry powder and lots of it.

8:30 PM

My lord, what do we do?!

8:33 PM

That's why he created the rain! In the case that we don't use water to put out the fire, the rain would spread the fire on its own. Even if we prepared dry powder, it wouldn't be dry anymore in this rain. This was an elaborate trap using water to stoke the fire!

8:31 PM ✓

Abandon ship! The navy is lost.

8:34 PM ✓

Xun You

@XunYou

How could things have gone wrong, so fast?! I'm beginning to think the Qiao sisters I've talked with weren't even them. It must have been Zhou Yu or Zhuge Liang behind those accounts, urging me to link my ships together.
